DETAILED ACTION

Entry of Amendment

1. Applicant's amendment, filed on December 10, 2002, as paper No. 6, is acknowledged. Claims 1-13 and 15-18 are currently pending.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

-Claims 1-13 and 15-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, it is unclear as to whether the first signal detector (Line 6) is the same as the second signal detector. (Line 8) Also, in claims 1 and 13, such as in lines 7 and 8 of claim 13, it is unclear as to how a tissue can "cooperate" with the electrodes, and in combination, form a signal detector. Furthermore, Claims 15-18 are structural limitations that fail to further set forth the steps in the method.

Claims 3 and 4 recites the limitation "matter" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

-Claims 1-4, and 13 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The structural limitations of the claims "tissue", a living matter as a structure that forms a product in combination with another structure.

Allowable Subject Matter

4. Claims 5-12 and 15-18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claim.

Response to Arguments

5. Applicant's arguments with respect to claims 1-13 and 15-18 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeoyuh Lin whose telephone number is (703) 306-5990. The examiner can normally be reached on m-f, 8:30-6:00.
